

# MAHARSHI RAVAL

## Full Stack Developer | AI & ML Enthusiast

Ahmedabad, Gujarat, India | +91 94274-14251 | ravalmaharshi3@gmail.com

---

### PROFILE SUMMARY

Full stack developer pursuing an MCA with a specialization in AI/ML and Natural Language Processing. Experienced in building responsive websites and e-commerce style customization tools using HTML, CSS, JavaScript, React, and .NET. Comfortable working in small teams to deliver client-facing web products end to end, from UI design through backend integration.

### EXPERIENCE

#### Frontend Developer — The Harbour Store

Mar 2026 – Apr 2026

*harbourstore.ca*

- Built a single-page marketing website from scratch using HTML, CSS, and JavaScript to showcase and promote the client's products.
- Designed the page layout and content flow to guide visitors toward viewing and purchasing featured products.

#### Full Stack Developer (Final Year Project) — CustomZone, Sharvaya Infotech

2024 – 2025

*Self-initiated final year academic project*

- Developed CustomZone, a full stack e-commerce platform for customizing clothing, stationery, and bottles with user-selected graphics and themes.
- Built the frontend with HTML, CSS, and React JS, and collaborated with a 3-person team to deliver the project on schedule.
- Implemented multiple graphic themes and a live customization preview to improve the end-user design experience.

### EDUCATION

#### Master of Computer Applications — Indus University

2025 – Present

- Specialization: Artificial Intelligence & Machine Learning with Natural Language Processing.

#### Bachelor of Computer Applications, Cloud Computing — Gujarat University

2022 – 2025

- CGPA: 7.1
- Coursework included database management systems and cloud computing fundamentals.
